COURSE OBJECTIVES

- to cover a broad spectrum of surgical procedures in colorectal and transanal surgery;
- to provide indications for surgical treatment and discuss operative complications;
- to highlight technicalities of surgical interventions through the broadcasting of live procedures;
- to allow real time discussion between the operators and the surgeon trainees;
- to provide hands-on sessions to improve skills in laparoscopic surgery through practice on live tissue under experts' tutorials;
- to describe postoperative clinical results and practical applications of evidence-based clinical medicine.

EDUCATIONAL METHODS

- Interactive theoretical and video sessions between faculty and course participants;
- Live and pre-recorded operative demonstrations.
