

PROGRAMME

ADVANCED COURSE IN ENDOSCOPIC UROLOGY AND RENAL LITHIASIS

MARCH 29TH AND 30TH, 2019
IRCAD – LATIN AMERICA

UNIDADE
BARRETOS

CHAIRMAN

Henrique Prata

**President of Fundação Pio XII
Hospital de Amor – Barretos**

PRESIDENT

Jacques Marescaux
President, IRCAD
University of Strasbourg, France

SCIENTIFIC DIRECTOR OF IRCAD

Armando Melani
Americas Medical City
Rio de Janeiro, Brazil

COURSE DIRECTORS

Olivier Traxer
Hôpital Tenon
Paris, France

Christian Saussine
NHC – Nouvel Hôpital Civil
Strasbourg, France

OBJECTIVES

- To know the equipment currently available to perform a PCNL
- To know and to have previously performed the different stages of PCNL in animal models
- To know the equipment currently available to perform a URS
- To know and to have previously performed the different stages of laser URS in animal models
- To know how to use image intensification and radiation protection rules
- To know how to use a laser
- To know disinfection protocols of flexible and semi-flexible endoscopes
- To know PCNL and URS indications

EDUCATIONAL METHODS

- Interactive theoretical and video sessions between faculty and course participants
- Live operative demonstrations
- Practical training on live tissue (mini-pigs) and on inanimate models

ORGANIZING COMMITTEE

Eliney Ferreira Faria - Department of Oncological Surgery - Urology – Hospital de Amor – Barretos
Alexandre Cesar Santos - Department of Oncological Surgery - Urology – Hospital de Amor – Barretos

FACULTY

Christian Saussine (France)
Denis Wilson Ramos (Brazil)
Edson Hiroshi Hayacibara (Brazil)
Geovanne Furtado (Brazil)
Gustavo Rocha (Brazil)
Marcelo Baptistussi (Brazil)
Olivier Traxer (France) - recorded

FRIDAY MARCH 29TH, 2019
Morning

08.00 am Welcome to participants C. Saussine

THEORETICAL SESSION:
Percutaneous nephrolithotomy
Chairman:

08.00 am Materials and technique C. Saussine

08.30 am Special features C. Saussine

09.00 am Indications, results, complications M. Baptistussi

 09.30 am Principles of Laser Lithotripsy - **recorded** O. Traxer

10.15 am Coffee Break

LIVE SURGERIES:

 PCNL (Percutaneous nephrolithotomy) *Operator: C. Saussine* *Chairman: D. Ramos*

 Flexible URS for kidney *Operator: C. Saussine* *Chairman: G. Rocha*

12.00 pm Questions and Answers

12.30 pm Lunch

Afternoon
THEORETICAL SESSION:
Flexible, semi-flexible and laser ureterorenoscopy
Chairman:
C. Saussine

01.15 pm Materials and technique E. Hayacibara

01.45 pm Indications, results, complications G. Rocha

 02.15 pm Endourology & UPJO - **recorded** O. Traxer

PRE-RECORDED OPERATIVE DEMONSTRATIONS
Chairman:

 03.15 pm - PCNL
- URS C. Saussine

30' Global results: Stone management in Brazil D. Ramos

05.45 pm End of the day session

SATURDAY MARCH 30TH, 2019

Morning

AUDITORIUM

08.30 am Laboratory rules *E. Belmonte*

EXPERIMENTAL LABORATORY (practice on Live Tissue)

08.50 am Materials presentation and handling: endoscopies, laser, pump and disposable instruments *C. Saussine*

09.10 am **Hands-on training:** *All faculty*

- On inanimate models (PCNL and laser flexible URS training)
- On live tissue (mini-pigs)

10.30 am **Open Coffee Break**

01.30 pm Lunch at the Institute

Afternoon

THEORETICAL SESSION

Chairman:
C. Saussine

02.15 pm Radiation protection *C. Saussine*

02.45 pm Material sterilization *E. Hayacibara*

03.15 pm International recommendations *M. Baptistussi*

03.45 pm RIRS State of the Art Lecture – How I do it & Tips and Tricks - *O. Traxer*
recorded

04.15 pm Clinical cases *All faculty*

05.00 pm End of course
Delivery of the certificate of attendance

All our thanks for their crucial participation to:

and also to
